**City of Castroville to Begin Street Project**

**Three-week project starts July 09, 2018**

**Castroville, TX** (June 29, 2018) – The City of Castroville will begin its 2018 Street Project on July 09, 2018. The three-week project will be carried out by All In Construction of San Antonio TX. This project will include leveling of city streets as required and a one-course chip seal applied to all streets.

Work will start in the Country Village sub-division on July 09, 2018 with maintainer work and chip seal operations. Work will progress to the streets east of the Medina River, move on to the streets south of Hwy 90 west of the Medina River, then to the streets north of the Medina River and north of Hwy 90, and finally the River Bluff sub-division. Notice of time and date each street to be involved will be hand delivered to affected residents 72 hour before work. The City would request that all vehicles be off the street at that time, any vehicles not moved are subject to being towed at owner's expense.

Flagman will be present to guide traffic around the area being repaved. Work will begin at 7:30 am and finish by 5:00 pm during the work week. A map showing the work areas is available on the City of Castroville website.

Please call Public Works at 830-931-4090 with any questions or visit [www.castrovilletx.gov](http://www.castrovilletx.gov) for more information.
