RE: Gas System Survey

Dear City of Castroville Resident,

Beginning on Wednesday, September 22nd, CPS Energy and their subcontractor, Southern Cross, will be conducting a Gas System Survey on behalf of the City of Castroville. Along with the system survey, they will be conducting atmospheric inspections at each gas meter installation. The Survey Technicians will be in uniforms with a yellow shirt, safety vest, hat, and CPS Energy contractor badges.

First the technicians will use a Smart Survey Vehicle to drive the gas lines and gather required information. This will be done between midnight and 7:00 AM.

Next, the Survey Technicians will work between 7:00 AM and 4:00 PM completing work orders generated during the line survey and conducting the atmospheric inspections.

Please call Public Works at 830-931-4090 if you have any questions or concerns regarding this issue.

Best regards,

John Gomez
Public Works Director
City of Castroville
